TERMS OF SALE

1. This is a public auction sale conducted by licensed and bonded auctioneers.
2. **No Commission or "BUYER'S FEE" will be charged for executing Bids.** These bids will be treated as your maximum bid for each lot. In general, we start the bidding on each lot at a small advance over the next highest bid, thereby attempting to purchase the lot as reasonably as possible for you. Bidders must pay all Postage, Express and Insurance charges.
3. We cannot be responsible for any errors in bidding. Please make certain you bid on the correct lot. When bidding for items in the sale, the bidder whether bidding in person, by mail, or by agent, agrees to abide by all the terms of sale.
4. **MAIL YOUR BID SHEET EARLY.** When identical mail bids are received by the auctioneer, preference is given to the first bid received. A mail bid will take precedence over an identical floor bid, and a floor bidder must bid higher than the highest mail bid to be awarded any lot. The auctioneer reserves the right to refuse ridiculously low bids which he, in his sole discretion, feels are not made in good faith. The auctioneer reserves the right to open the lot at a reasonable price, to set bidding increments as he, in his sole discretion, shall determine, and to withdraw any lot at any time.
5. Coins, Medals, etc., are sold so much per LOT, unless otherwise stated. No lots will be broken up. Estimates given are for the general guidance of the bidder. The lots can sell above or below the estimates.
6. All items offered in this catalogue are guaranteed to be genuine and correctly attributed. Claims to the contrary must be made within seven (7) days after receipt of the material. No lot may be returned without a prior written consent for any reason whatsoever or without its original container. Grading is a subjective description in the opinion of the cataloguer as to the state of preservation of a particular coin or lot. The term "proof" or "specimen" is used to describe a method of manufacture, and not a grade or condition. Such terms are the opinion of the cataloguer and shall be deemed to be part of the description and not an attribution. No warranty, whether expressed or implied, is made with respect to such adjectival descriptions, which can and do vary among experts.
7. Auction sales are not approval sales. In the event of non-payment by the buyer, STACK'S expressly reserves the right to refuse to deliver the lots and in addition STACK'S reserves any and all rights that it would be entitled to under the Uniform Commercial Code. Floor bidders are encouraged to carefully examine all lots on which they are interested in bidding since **NO LOTS PURCHASED BY FLOOR BUYERS MAY BE RETURNED**, including those lots where the floor buyer is acting as agent for another, or those lots sold to mail bidders who have examined the lots.
8. The highest bidder shall be the buyer, and if any dispute arises between two or more bidders, the lot in question shall be immediately put up and sold again. No lots will be put up out of their numerical order.
9. Unknown bidders must establish credit references or submit a deposit of 25% of their bids. By bidding in this sale, even if for a corporation or another individual, a bidder personally guarantees prompt payment. We cannot accept bids from minors. By bidding in this sale, the bidder acknowledges that the purchase is not a consumer credit transaction. **TITLE REMAINS WITH STACK'S UNTIL PAID FOR IN FULL.** It is the buyer's responsibility and obligation to have the lots fully insured while in his possession. Risk of loss is on the buyer.
10. Auction sales are strictly for cash and must be paid for promptly in U. S. funds. All bidders personally guarantee prompt payment. Checks are acceptable with proper identification. On any accounts past due, STACK'S reserves the right to extend credit and impose periodic charges as stated on the invoice or statement.
11. All lots delivered in New York State are subject to applicable Sales Tax.
12. Except for any claim or controversy arising out of non-payment (which, at the exclusive option of the seller or auctioneer may be referred to arbitration), any claim or controversy arising out of this sale shall be settled exclusively by binding arbitration under the rules of the Professional Numismatists Guild, Inc., then in effect. By bidding in this sale you agree to be bound by the arbitration provisions of the Professional Numismatists Guild. In all cases, the maximum liability of STACK'S for any item sold shall be limited to the official price of record of the item at this sale.

1101 1793 S.3. Chain. **AMERICA**. The leaning 'R' variety. Fine-15. A strong coin nearly a 20 grade. Even steel-brown and very attractive.

Lot No. 1102

1102 1793 S.9. Wreath type. With the reverse breaks on "UNITED" and "AMERICA." Strictly Fine-12 but unfortunately the edge device has been erased by edge hammering. Still quite attractive.

- 1103 1794 S.72. The Head of '95 with the reverse crack. Very Fine-20, the normal flat strike for this variety. Warm mahogany brown with a few small edge dinges consistent with the grade.

Evidently the rarest variety of the year, as no specimens are reported as being in any of the larger collections. Possibly this is the one Newcomb originally described the variety from."

This coin was lot 141 in Christie's Major Lord St. Oswald Sale held in London on October 13, 1964. It is illustrated in Walter Breen's "Encyclopedia of United States and Colonial Proof Coins" where the author described it as a "Presentation Piece." Without question it is one of the finest examples of the Dollar in existence. However, it must be doubted that the coin should be classified as a "Presentation Piece."

The 4th Lord St. Oswald who consigned his United States coins to Christie's for sale in October, 1964 was a collateral descendant of Sir Rowland Winn, Bart., a wealthy young Englishman of liberal sentiments, an inquiring mind and a taste for adventure. It would appear probable that these qualities inspired him, at the age of 20, to visit North America in 1795 to see for himself how the new Republic was getting along. Like many tourists before and since he made a point of visiting the nation's capital, then Philadelphia, to examine the seat and machinery of government. The very quantity of the pieces discussed below tells the story. Young Rowland Winn was not of the calibre to inspire presentations of any kind; it was more than likely that he visited the Mint and took his pick of freshly struck coins available in the Superintendent's strong box, paying for them in welcome English gold. Naturally, he chose the best pieces available, as anyone would today.

The present cataloguer, Norman Stack, was able to attend the St. Oswald Sale in London and to examine for himself the two 1794 and three 1795 Dollars, the three 1795 Half Dollars, and the twenty one 1794 Cents that were among Sir Rowland's souvenirs of his American journey in 1795. He was fortunate in being able to acquire one of the 1795 Dollars in the sale, lot 139, still in his collection and illustrated in his book, "United States Type Coins." Without question, **the 1795 Dollars are really superb.** The entry made in his original bidding catalogue, alongside lot 141 (**the coin offered here**), sums up the quality of the coin in a single word—**SPLENDID**. That judgement has stood the test of time and cannot be improved upon even after 20 years.

If the St. Oswald pieces are of legendary quality they are not without another and very rare distinction. The purchaser of this 1795 Dollar will own a coin with one of the oldest extant pedigrees. It went almost directly from the first United States Mint across the Atlantic to slumber undisturbed in a splendid piece of 18th Century furniture for 170 years. There are few coins in any collection with such a notable descent.

Ex Lester Merkin Sale, October 1973, lot 451, where it realized \$29,000.00 (well before the real escalation in prices).

A MOST UNUSUAL GROUP OF
LIBERTY SEATED CARSON CITY DOLLARS

From the Harold S. Bareford Collection and we quote from that catalogue: "The following three Carson City dollars are all very rare. They are, however, exceptionally rare in their condition, especially so because they are so evenly matched. Obviously, Mr. Bareford felt he should buy these as a group. We hope that the next buyer will continue the pattern set forth by Harold Bareford." And such was precisely the case.

1872'CC' SILVER DOLLAR

U. S. QUARTER EAGLES (\$2.50 GOLD)

EXTREMELY RARE
1796 NO STARS QUARTER EAGLE

Lot No. 1243

- 1243 **1796 No Stars.** The first year of issue and the only year of this type without stars on the obverse. **Extremely Fine**, the "E" of LIBERTY and the adjacent reeding on the edge are slightly weak as usual. Some light hairlines and a small obverse rim nick opposite the neck. A lovely example with greenish-coppery toning. Better than the example in our session of Auction '82 that realized \$17,000.000.

(Enlarged)

Lot No. 1244

- 1244 **1802/1** A strong Very Fine, very nearly Extremely Fine. Pale coppery toning about its periphery. A scarce and desirable type.

- 1245 **1836** About Uncirculated. The obverse sharp and prooflike, the reverse with a small edge dent. Light coppery toning.

GEM 1848 'CAL' QUARTER EAGLE

Lot No. 1246

- 1246 1848 'CAL' Type of the regular issue. **CAL.** (for California) counterstamped on reverse directly above eagle. This was stamped at the Mint while the coin was still in the die. It is to signify that it was minted from the first mined gold received at the Philadelphia Mint from California. We do not have a record of the exact number struck, but apparently the number was small. This is as beautiful a specimen as we have ever seen or sold. **Gem Brilliant Uncirculated** with prooflike surface. The usual striae common to this coin. A needle-sharp strike of breathtaking beauty.

Of the greatest importance to both the collector of Federal issues as well as the Pioneer and Territorial series. If not the finest known, this specimen is certainly second to it!

(Enlarged)

- 1247 1890 **Brilliant Uncirculated**, pale orange toning. Scarce.

1897 PROOF QUARTER EAGLE

Lot No. 1248

- 1248 1897 **Choice Brilliant Proof**. *136 specimens struck*. The faintest friction and a tiny mark or two but certainly a choice example with a full two-tone appearance.

U. S. HALF EAGLES (\$5.00 GOLD)

POPULAR 1795 HALF EAGLE

Lot No. 1268

- 1268 1795 The first year of issue. **Small Eagle** reverse. **Extremely Fine** and a beautiful coin. Nicely struck and centered in pale greenish-coppery gold.
- 1269 1806 Round top 6. **Extremely Fine** and a splendid coin with lustre in the devices. Nicely struck in greenish-yellow gold.

ATTRACTIVE 1810 HALF EAGLE

Lot No. 1270

- 1270 1810 Large date. Large 5. About **Uncirculated** and a sharply struck example in deep yellow gold with coppery overtones. Very attractive.

VERY RARE 1830 HALF EAGLE

Lot No. 1271

- 1271 **1830 Capped head left. Motto. Large 5 D.** Small planchet. This type always comes with a small date as well. **About Uncirculated**, sharply struck with considerable prooflike surface. As a type it is the third rarest (just behind the 1796 No Stars and 1808 quarter eagles). Not only was it a short lived type, 1829-1834, but due to the Act of June 1834 which reduced the weight and fineness of the coins, these "convenient" coins suffered an accelerated attrition rate. They were worth more than face value and were therefore melted. A rarity and in beautiful condition - all the ingredients for a record price.

The Large D variety is by far rarer than the Small 5 D. According to Akers there were 20 appearances of this variety and 31 of the Small 5 D variety. In addition, at the recent "Gold Coin Collection" Sale an Uncirculated example of a Large 5 D variety sold for only \$1,000.00 less than a Proof Small 5 D!

- 1272 **1834 Classic Head. Plain 4.** About Uncirculated, prooflike and lustrous. A couple of bagmarks on the obverse. Really a choice coin.

RARE 1890 PROOF HALF EAGLE

Lot No. 1273

- 1273 **1890 Choice Brilliant Proof.** 88 specimens struck. Faint obverse hairlines, the reverse virtually perfect. A sensational two-tone example of this rare coin. Consider the fact that only 4,328 were coined including "Business Strikes," making it the lowest mintage of coins from 1880 to 1907 with the exception of 1887! This coin should command a bid approaching the five figure mark.

U. S. \$5.00, \$10.00 GOLD

- 1274 1900 Brilliant Uncirculated, sharply struck, light coppery toning.
- 1275 1900'S' Very Fine, lightly cleaned.
- 1276 1912 Brilliant Uncirculated. A few bagmarks on the "matte-like" surface. A choice coin nevertheless.
- 1277 1915 Brilliant Uncirculated, light bagmarks. Well struck and attractive.

U. S. EAGLES (\$10.00 GOLD)

ATTRACTIVE 1795 EAGLE

Lot No. 1278

- 1278 **1795** The first year of issue. Thirteen leaf reverse. **Extremely Fine**. Boldly struck with broad borders. A small planchet defect on the rim mostly noticeable on the reverse below the eagle. Overall a most attractive example of this Classic coin.

VERY RARE 1804 EAGLE

Lot No. 1279

- 1279 **1804** The last year of the large size eagle. As is virtually always the case, this date was struck from severely damaged dies resulting in mounding in the field and weakness at the profile and a couple of stars. **Choice Extremely Fine** with prooflike surface in the devices. Struck in deep yellow gold with a coppery tint. Fully on par in rarity with the 1797 Small Eagle.

OUTSTANDING MINT STATE 1842'O' EAGLE

Lot No. 1280

- 1280 **1842'O' Brilliant Uncirculated.** A sharply struck specimen, slightly prooflike, pale yellow gold. Quite nice and far above average offered for sale. Very rare in this condition. According to David Akers only **three Mint State specimens are known**, including this example. By far better than the specimen in the "United States Gold Collection" Sale. Ex Stack's Spring Sale, lot 891, April 1978; later lot 1193 from our March 1982 Sale.

- 1281 1893 About Uncirculated, frosty.

Obverse: Eagle with shield and ribbon; 887 THOUS on scroll above, the 887 is **not** incused; UNITED STATES OF AMERICA FIFTY DOLLARS around, all within a finely beaded circle; 1851 below; AUGUSTUS HUMBERT UNITED STATES ASSAYER OF GOLD CALIFORNIA around in smaller letters. Reverse: Heavy engine turned design with medium target in center. A very choice **Extremely Fine**. Virtually free of the usual dents, particularly on the edges, however, some are barely visible. One corner dent was neatly and unobtrusively eliminated. Some minor surface marks. Struck slightly off-center to the right causing the left side to be slightly weak. A sensational specimen.
